Export declaration for HMS Ewon products

EU Dual-Use Export Regulation

Following the Commission Delegated Regulation **(EU) 2020/1749**, all Ewon products are classified

5A002.a – System, Equipment and Component designed or modified to use "cryptography for data confidentiality"

And fall on the exceptions regarding Dual Use regulation:

h. Routers, switches, gateways or relays, where the "information security" functionality is limited to the tasks of "Operations, Administration or Maintenance" ("OAM") implementing only published or commercial cryptographic standards

j. Items specially designed for a 'connected civil industry application', meeting all of the following:
1. Being any of the following:
a. A network-capable endpoint device meeting any of the following:
1. The "information security" functionality is limited to securing 'non-arbitrary data' or the tasks of "Operations, Administration or Maintenance" ("OAM"); or
2. The device is limited to a specific 'connected civil industry application'; or
b. Networking equipment meeting all of the following:
1. Being specially designed to communicate with the devices specified in paragraph j.1.a. above; and
2. The "information security" functionality is limited to supporting the 'connected civil industry application' of devices specified in paragraph j.1.a. above, or the tasks of "OAM" of this networking equipment or of other items specified in paragraph j. of this Note; and
2.Where the "information security" functionality implements only published or commercial cryptographic standards, and the cryptographic functionality cannot easily be changed by the user.

Technical Notes:
1.'Connected civil industry application' means a network connected consumer or civil industry application other than "information security", digital communication, general purpose networking or computing.
2.'Non-arbitrary data' means sensor or metering data directly related to the stability, performance or physical measurement of a system (e.g., temperature,
